Regular steamship services with America, South America, East Africa Mexico, Cuba, Spain, Fortugal, Australia and Mediterraneau and Scandinavian ports, have been re-esestablished, and the North sea, Baltic sea and Rhine traffic has assumed a new and lively aspect. Handicapped by shortage of ships the Germans have turned their attention to conversion of warships to commercial usages, to construction of motor ships out of sailful vessels, and to the study of oilfiel as a substitute for the more expensive coal fuel.

Revival of German commerce is in.

Revival of German commerce is indicated by the increased number of ships calling at the more important ports. LONDON, Feb. 5,- What India wants immediately can be be summed up in two words-home rule.

"What India wants ultimately can be summed up in two more wordscomplete independence."

There you have the aspirations and aims of the Indian movement from Mrs. Sarojini Naidu, a high-casts Brahmin woman, known in political circles as one of the chief advocates of unity among her people. Leaders like ber are slowly sounding Britain's control of her richest dominion.

Among book-lovers Mrs. Naidu is tamous as the greatest poet in English verse that India has produced. Her poems, reflecting the very soul of the plandu peoples, have been praised by all critics whose opinion is worth while.

When I talked to her, she had her straight black hair brushed smoothly and plainly back from her forchead, with no ornamentation of any kind. She wore a golden yellow silk Jacket, iswinging down from her left shoulder was a dark blue silk wrap with gold ornaments.
